The First UMN-CAS Bilateral Seminar on PM_{2.5} Science, Health Effects and Control Technology in Xi'an was successful and productive (see Particology 16 (2014): 227-229). The Seminar was attended by 100 UMN, CFR and CAS delegates. In view of your achievement in PM_{2.5}, we cordially invite you to join us in Minnesota for the 2nd UMN-CAS Bilateral Seminar followed by the 48th UMN Center for Filtration Research (CFR) Meeting and Seminar, which will be held October 6-9, 2015. It is a valuable opportunity for networking with other experts and cooperating to solve the PM_{2.5} pollution problem.

Looking forward to see you in Minnesota!

Prof. David Y.H. Pui

University of Minnesota

Prof. Junji Cao

Institute of Earth Environment, CAS

IMPORTANT DATES:

Major Sponsors:

Announcement: December, 2014

Registration (Send the registration form to Monica): May 1st, 2015

8 Slides and Half-page CV of the Author Submitted (Example Download: http://aerosol.ieecas.cn/xwdt/201412/t20141213_272000.html) : August 1st to September 15th, 2015

Site-visit to Minnesota CFR Companies: October 6th, 2015

2nd UMN-CAS Bilateral Seminar at 3M Innovation Center (in St. Paul): October 7^{-8th}, 2015

48th CFR Meeting and Seminar at TSI Inc. (in St. Paul): October 9th, 2015

Filtration
